Supplement for CKD

CKD: Chronic Kidney Disease

How to Use

2 softgels daily with meal

When to Use

Any time of the day

Indications

Helps support kidney health in patients with CKD and those on dialysis.

Improves patients' cardiovascular health.

Helps improve the health of the nervous and muscular systems.

Contributes to the formation of red blood cells.

Reduces fatigue and increases energy levels.

Key Ingredients

Omega-3 fatty acid supplementation is associated with:

- **A significantly reduced risk of ESKD* and delaying the progression of CKD.**
- **Lower risk of proteinuria.**

Vitamin E supplementation:

- **Reduces the risk of acute kidney injury in CKD patients.**
- **Improves renal function in diabetic patients.**
